

Texas Brine Company, LLC

ENVIRONMENTAL, HEALTH, SAFETY & SECURITY POLICY

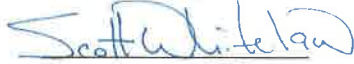

Texas Brine Company, LLC and its affiliated companies recognize its responsibility to provide a safe, secure, and healthy work environment for its employees, contractors and the public while protecting the environment. Management is committed to environmental, health and safety excellence and believes that every employee has an obligation to contribute to this endeavor. Every employee is accountable for maintaining a safe and healthful workplace and for protecting and improving the environment.

Chemistry is essential to the products and services that help make our lives safer, healthier and better. Through the Responsible Care initiative and the Responsible Care Global Charter our industry has made a worldwide commitment to improve our environmental, health, safety and security performance. We are committed and subscribe to the following principles:

- ◆ To lead our companies in ethical ways that increasingly benefit society, the economy and the environment.
- ◆ To design and develop products that can be manufactured, transported, used and disposed of or recycled safely.
- ◆ To work with customers, carriers, suppliers, distributors and contractors to foster the safe and secure use, transport and disposal of chemicals and provide hazard and risk information that can be accessed and applied in their operations and products.
- ◆ To design and operate our facilities in a safe, secure and environmentally sound manner.
- ◆ To instill a culture throughout all levels of our organizations to continually identify, reduce and manage process safety risks.
- ◆ To promote pollution prevention, minimization of waste and conservation of energy and other critical resources at every stage of the life cycle of our products.
- ◆ To comply with all regulations and other requirements such as Responsible Care.
- ◆ To support education and research on the health, safety, environmental effects and security of our products and processes.
- ◆ To communicate product, service and process risks to our stakeholders and listen to and consider their perspectives.
- ◆ To make continual progress towards our goal of no accidents, injuries or harm to human health and the environment from our products and operations and openly report our health, safety, environmental and security performance.
- ◆ To seek continual improvement in our integrated Responsible Care Management System® to address environmental, health, safety and security performance.
- ◆ To promote Responsible Care® by encouraging and assisting others to adhere to these Guiding Principles.
