**Eye contact**
Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Get medical attention if irritation persists.

**Skin contact**
Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. If skin irritation persists, call a physician.

**Inhalation**
Move to fresh air.

**Ingestion**
Never give anything by mouth to an unconscious person. Drink plenty of water. Induce vomiting, but only if victim is fully conscious. If large quantity is consumed, seek medical attention.

**Indication of immediate medical attention and special treatment needed, if necessary**

**Notes to physician**
Keep patient under observation. Treat symptomatically.

Environmental Precautions

Keep out of waterways. Brine Solution (salt water) may be fatal to freshwater species.

Methods and Materials for Containment and Cleaning Up

Methods for Containment

Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see Section 13).

Methods for Cleaning Up

Use mechanical means such as pumps and absorbent materials. Pick up and transfer to properly labeled containers.
